Environmental Permit Renewal, including gold calcine recycling

SPMP is pleased to announce that it has successfully renewed the Preliminary Environmental Permit (PEP) for the 3rd consecutive year, maintaining and developing world class environmental strategy in the Oman Antimony Roaster facility (OAR), Suhar Free Zone, Suhar, Sultanate of Oman.

The permit includes the innovative technology to recover Gold during the OAR calcine recycling process.

SPMP would like to thank all the Government authorities, Suhar Industrial Port Company (SIPC) and all the stakeholders of SPMP to bring this highly important critical and precious metal processing plant, first of its kind in Oman.

Yours faithfully

Emin Eyi
Chief Executive Officer
